# MUCH ASPHALT COLD MIX

# MUCH ASPHALT COLD MIX

Cold Mix is an environmentally friendly, cost efficient cold mix asphalt for minor road repair works.

## Uses

Cold Mix asphalt is well suited to sidewalks, parking spaces, playgrounds and low traffic areas.

It is used mostly for smaller patches and to fill potholes, but is also a good alternative for hot mix asphalt where the site is too remote for transportation.

## Instructions for use

Remove failed pavement and trim the edges. Remove loose debris, dust and water.

Apply bonding coat (SS60 – available at all Much Asphalt branches), by painting onto pavement surface.

Lay the Cold Mix evenly. Compact until level with road surface by hand tamping (spade or hoe) or with a plate compactor or roller compactor (recommended).

The area can be opened to traffic immediately after compaction.

## Features

- **Easy to handle:** Easy to carry around anywhere and any time.
- **Easy to store:** Cold Mix bags are well sealed. If unopened, they will be good for 12 months.
- **Easy to apply:** No mixing, no heating, just spread and compact (DIY).

## Specifications for use

<b>Size and grading:</b>	7.1mm
<b>Bitumen content:</b>	5.5%
<b>Content covers:</b>	0.4m <sup>2</sup> – 0.5m <sup>2</sup> ; 25mm deep
<b>Mixing temperature:</b>	90-100°C
<b>Storage:</b>	At ambient/room temperature
<b>Grading spec:</b>	According to COLTO fine mix
<b>Colour:</b>	Black

## MUCH ASPHALT

Much Asphalt is the largest commercial asphalt producer in Southern Africa. We pride ourselves on the consistent quality of our wide range of hot and cold asphalt products, our service offering to large and small asphalt users, and our excellent safety record.

Much Asphalt manufactures fit-for-purpose products for all types of roads from short access roads to provincial proclaimed roads, national freeways and highways, and runways.
